

All in the Details
Testimonial 1

August 30, 2006

I met Patti Phelps of All in the Details several years ago when I needed someone to help me plan and plant a new perennial garden. With her expertise and experience, she created a garden which was chosen by the Concord Junior Service League for their annual fundraising "Walking Tour of Concord Gardens."

Since then, Patti Phelps and Ann Marie Finn have expanded All in the Details and have completed interior design not only for me and my friends, but also for my son's condominium in Boston.

When I remodeled my third floor attic to a 500+ square foot master bedroom suite and bathroom, Patti and Ann Marie helped me with space planning and recommended furniture, lighting, wall colors, and accessories right down to the towels, towel racks, and draw pulls, to name a few of the items.

I find both Patti and Ann Marie enjoyable to work with. They listen to the customer's needs and wants, and they work within the budget, which is offered. They are able to work with clients like me I'm not always sure what I want, but I want it to look nice, and they understand my eclectic taste.

I consider them professional and yet fun to work with. I would recommend them without reservation.
