SUPERIOR HOMES BY DESIGN
Custom Home Design, Building & Remodeling
SINCE 1980

January 7, 2008

To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for *All in the Details Design*.

All in the Details Design staged a home for us in the 2007 NH Parade of Homes. They gave the home a personality that was warm and inviting. The work they did played a significant role in making our home the favored home in the Parade as voted on by the many attendees of the Parade.

Their work also played a major role in the sale of the home which actually occurred during the Parade of Homes. Their staging was such an important factor in the buyers' decision that the buyers actually purchased many of the items used to decorate the home. The buyers also retained *All in the Details* to do additional interior decorating after they purchased the home.

It was a pleasure working with Ann Marie and Patti in the days and weeks leading up to the weekend of the Parade. Their pleasant and professional attitudes helped to create an enjoyable atmosphere while working at the home. They also went above and beyond all expectations to help us reach the deadline for entry into the Parade. They worked extra hours and made special arrangements to ensure the home would be ready in time.

I strongly recommend *All in the Details Design* for anyone wishing to take a house and make it a sellable home.

Sincerely,

Mark E Flanders, CGR, GMB
President
